PLAY STRUCTURES

GEO-STR

Modular play structures designed for durable, customizable, and engaging play environments.

Shown: GEO-STR-200
Modular play structure system built for durability, safety, and endless play possibilities.

MODULAR DESIGN

Flexible components allow for a variety of configurations to suit any space.

DURABLE CONSTRUCTION

Engineered with high-quality materials to withstand heavy use and harsh outdoor conditions.

SAFETY-FOCUSED DESIGN

Designed with child safety in mind, featuring secure connections, rounded edges, and stable support.

ENGAGING PLAY ENVIRONMENTS

A wide range of interactive elements that promote imagination, movement, and social play.

MATERIAL SPECIFICATIONS

Durable Materials: Fabricated from high-strength steel, aluminum, and durable composite materials.

Protective Finishes: Powder-coated or anodized finishes resist corrosion, UV exposure, and wear.

Weather Resistant: Engineered to withstand extreme weather conditions and heavy public use.

Sustainable Materials: Recyclable materials supporting green building initiatives.

KEY BENEFITS

MODULAR SYSTEM DESIGN
Flexible systems allow slides, climbers, and interactive elements to be integrated into cohesive playground layouts.

DURABLE CONSTRUCTION
Built with high-quality materials designed to withstand heavy use and challenging environmental conditions.

ARCHITECTURAL INTEGRATION
Designed to complement landscape architecture and integrate seamlessly with modern park environments.

SAFETY FOCUSED
Engineered with guardrails, secure connections, and compliant play heights to ensure user safety.

EXPANDABLE CONFIGURATIONS
Modular components allow systems to grow and adapt as playgrounds evolve over time.

PERFORMANCE & SAFETY

SAFETY COMPLIANT
Engineered and manufactured to meet CSA Z614, ASTM F1487, and EN 1176 playground equipment standards.

STRUCTURAL STRENGTH
Designed for high load capacity and structural stability.

SECURE CONNECTIONS
Tamper-resistant hardware and secure connections ensure long-term stability and safety.

AGE APPROPRIATE DESIGN
Components designed for a wide range of age groups and ability levels.

IMPACT RESISTANCE
Materials and components tested for impact resistance in high-traffic environments.

LOW MAINTENANCE
Durable finishes and quality materials reduce wear and maintenance requirements.

TYPICAL CONFIGURATIONS

COMPACT STRUCTURE | MULTI-TOWER SYSTEM | THEMED STRUCTURE | INCLUSIVE PLAY SYSTEM

Custom layouts, heights, and components available to meet project-specific requirements.

OUR APPROACH TO PLAY STRUCTURES

1 CONCEPT DEVELOPMENT
We collaborate with architects, landscape designers, and project stakeholders to define the overall playground layout and play objectives.

2 SYSTEM DESIGN
Our team develops modular play structures tailored to the project's site conditions, height requirements, and integrated play components.

3 TECHNICAL COORDINATION
We provide drawings, technical details, and coordination support to ensure smooth installation and compliance with playground safety standards.

APPLICATIONS

- Municipal Parks
- School Playgrounds
- Community Recreation Areas
- Urban Developments
- Nature Play Areas
- Daycares & Early Learning Centers

INSTALLATION OPTIONS

MODULAR PLAY STRUCTURES | SLOPED SITE INTEGRATION | SURFACE & IN-GROUND INSTALLATIONS

Engineered for safe, secure installation with detailed mounting and anchoring recommendations.

MAINTENANCE

- Routine inspections recommended to ensure ongoing safety and performance.
- Clean surfaces with mild soap and water to maintain appearance.
- Check hardware and connections periodically for stability.
- Minimal maintenance required for long-lasting performance and durability.

WARRANTY

8 YEAR STRUCTURAL WARRANTY
3 YEAR COATINGS & FINISHES WARRANTY
2 YEAR COMPONENTS WARRANTY

Consult terms and conditions for full warranty details per product type.

SUSTAINABILITY

RECYCLABLE MATERIALS
Made with recyclable materials to reduce environmental impact.

ECO-FRIENDLY DESIGN
Supports sustainable landscape design and green building initiatives.

DURABLE & LONG-LASTING
Built for long service life, reducing waste and replacement needs.

LEED® CONTRIBUTION
Supports LEED credits for Sustainable Sites and Materials & Resources.

FAQ

Q: What types of play structures are available?
A: Modular play structures are available in a variety of configurations, heights, and themes to suit different ages and site conditions.

Q: Can play structures be customized?
A: Yes, structures can be customized in size, layout, color, materials, and integrated play components.

Q: What materials are used for play structures?
A: Structures are fabricated from high-strength steel, aluminum, and durable composite materials with protective finishes for long-term performance.
