BALANCE ELEMENTS

GEO-BAL

Balance elements designed to develop coordination, agility, and confidence through fun, challenging play in any outdoor environment.

SKILL DEVELOPMENT

Enhances balance, coordination, agility, and motor skills through challenging and engaging play.

DURABLE CONSTRUCTION

Built with high-quality, weather-resistant materials for long-lasting performance in high-use areas.

LOW-MAINTENANCE MATERIALS

Designed with durable, easy-to-clean materials that require minimal upkeep over time.

ENGAGING DESIGN

Fun, interactive elements encourage active play and imaginative exploration.

MATERIAL SPECIFICATIONS

Durable Materials: Fabricated from high-strength steel, aluminum, and durable composite materials built for public use.

Protective Finishes: Powder-coated or anodized finishes resist corrosion, UV exposure, and wear.

Hardware & Connectors: Stainless steel hardware ensures secure, long-lasting connections and safe operation.

Weather Resistant: Engineered to withstand extreme weather conditions and heavy public use.

Sustainable Materials: Recyclable materials supporting green building initiatives.

KEY BENEFITS

ENCOURAGES PHYSICAL DEVELOPMENT
Balance elements help children build coordination, strength, and spatial awareness through active play.

DURABLE CONSTRUCTION
Built with high-quality materials designed to withstand heavy public use and challenging environmental conditions.

FLEXIBLE INSTALLATION OPTIONS
Elements can be installed individually or integrated within larger playground layouts and play structures.

SAFETY-FOCUSED DESIGN
Engineered with stable foundations and safe play heights to support confident exploration.

COMPLEMENTARY PLAY FEATURES
Balance elements work well alongside climbing systems, play structures, and other playground equipment.

PERFORMANCE & SAFETY

SAFETY COMPLIANT
Engineered and manufactured to meet CSA Z614, ASTM F1487, and EN 1176 playground equipment standards.

STRUCTURAL STRENGTH
Designed for high load capacity and long-term durability.

SECURE CONNECTIONS
Tamper-resistant hardware and proper connections ensure safe and stable performance.

AGE APPROPRIATE DESIGN
Elements designed for a wide range of age groups and ability levels.

IMPACT ABSORPTION
Designed for use with impact-absorbing surface materials to reduce the risk of injury from falls.

LOW MAINTENANCE
Durable finishes and quality materials reduce wear and maintenance requirements.

TYPICAL CONFIGURATIONS

BALANCE BEAM | STEPPING POSTS | WOBBLE BOARD | LOG BALANCE | CURVED BALANCE

Custom layouts, heights, and components available to meet project-specific requirements.

OUR APPROACH TO BALANCE ELEMENTS

1 PLAYGROUND LAYOUT PLANNING
We collaborate with designers and project stakeholders to determine how balance features can enhance the overall play environment.

2 ELEMENT DESIGN
Balance elements are designed to suit the project's site conditions, play objectives, and surrounding playground equipment.

3 INSTALLATION SUPPORT
Our team provides technical drawings and guidance to support safe installation and compliance with playground safety standards.

APPLICATIONS

- Municipal Parks
- School Playgrounds
- Community Recreation Areas
- Urban Developments
- Nature Play Areas
- Daycares & Early Learning Centers

INSTALLATION OPTIONS

SURFACE MOUNT | IN-GROUND INSTALLATION | HEAVY-DUTY ANCHORING

Engineered for safe, secure installation with detailed mounting and anchoring recommendations.

MAINTENANCE

- Routine inspections recommended to ensure ongoing safety and performance.
- Clean surfaces with mild soap and water to maintain appearance.
- Check hardware and connections periodically for stability and wear.
- Minimal maintenance required for long-lasting performance and durability.

WARRANTY

8 YEAR	3 YEAR	2 YEAR
STRUCTURAL WARRANTY	COATINGS & FINISHES WARRANTY	COMPONENTS WARRANTY

Consult terms and conditions for full warranty details per product type.

SUSTAINABILITY

RECYCLABLE MATERIALS
Made with recyclable materials to reduce environmental impact.

ECO-FRIENDLY DESIGN
Supports sustainable landscape design and green building initiatives.

DURABLE & LONG-LASTING
Built for long service life, reducing waste and replacement needs.

LEED® CONTRIBUTION
Supports LEED credits for Sustainable Sites and Materials & Resources.

FAQ

Q: What types of balance elements are available?
A: Balance beams, stepping posts, wobble boards, log balances, curved balances, and custom configurations.

Q: Can balance elements be customized for different projects?
A: Yes, elements can be customized in size, height, shape, materials, and integration with other play equipment.

Q: What materials are used for balance elements?
A: Elements are fabricated from high-strength steel, aluminum, and durable composite materials with protective finishes.

Q: What surfaces are used under balance elements?
A: Impact-absorbing surfaces such as engineered wood fiber,
